**Elegance**

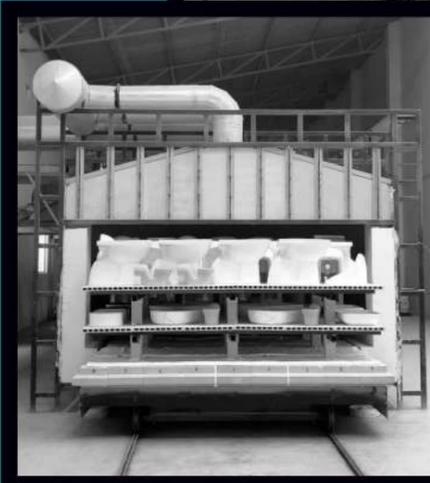

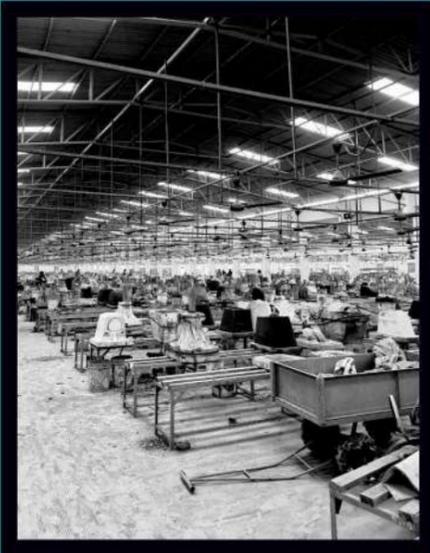

COLLECTION 2025

## Production

Always committed to interpreting new tastes and trends, We looks to the future with continuous innovation of its process and products. This requires the integration of different skills, from the design to engineering, from chemistry to logistics, from marketing to sociology. The company has always paid great attention to saving energy and protecting the environment.

It is constantly evolving in order to continuously improve the functional performance and aesthetics of its collections. The wide range of shapes, sizes, colours and methods of installation of its products allows satisfying the different tastes and requirements of customers in a safe and precise manner.

# The Company

There comes a time when an excellent sanitary ware design and Production Company enters the market to shake up status quo and challenge other players with exquisite designs and extraordinary product quality.

With an eye to storm the world in coming years, they have set up a design unit and manned it with artists to make sure the designs not only meet, but beat international presentations in sanitary ware. The management believes their designs will completely replace Italian, Spanish and other European pieces when in markets.

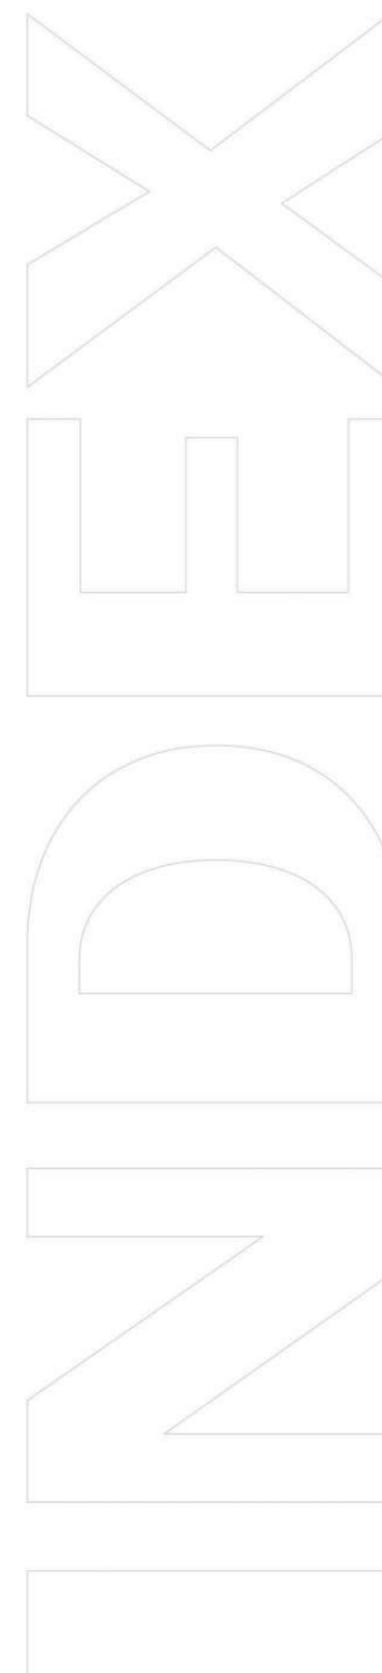

With state of the art technology adorning the plant and machinery of latest makes from best suppliers of the world, their products will roll out with excellence of quality never seen before.

Established at the ceramic capital of India, namely Morbi, it is managed by young and experienced businessmen with a knack of growing fast. They have together an experience of 10+ years in varied businesses, making them great networkers, powerful decision makers and super specialists in their own fields and above all the maturity to establish and operate a sanitary ware factory of high quality and volume.

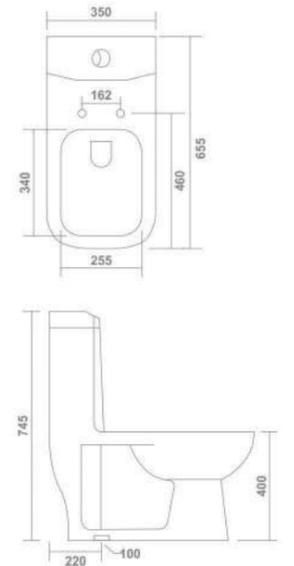

With all the strengths and a zeal to outperform, the team is now focused on growing exponentially. You can trust us to deliver what we promise.

It is manned with professionals that have expertise in clay and related technologies. With good quality control mechanisms, a well equipped laboratory and consistent watch on delivering quality, the company promises to produce and supply the best sanitary ware in India.

**Why You Should Buy a Wall Mount Toilet?**

Common in European bathrooms, wall-mounted toilets started gaining popularity in the india as well and for good reason. There are numerous advantages to using them, both in terms of used space and practicality and design overall. But first let's discuss a few general details.

So what is a wall-hung toilet and what makes it special? Their main distinctive feature which differentiates them from floor-mount toilets is the fact that the water tank is concealed behind the wall. It still remains accessible through the flush plate opening but stays out of view or you can use flush valves as well which are directly connected to the main water line to the bathroom. The bowl is mounted to the wall and the plumbing is connected to the water tank inside the wall.

## Exploring the World of Basins

5mm THICKNESS

### Thin Rim

Basin bowl with only 5mm thickness

Elegant THIN EDGE basin with fine edges that is only 5 mm in thickness. The attractive clay art is made by the innovative material.

### How Do I Choose A Bathroom Wash Basin Sink?

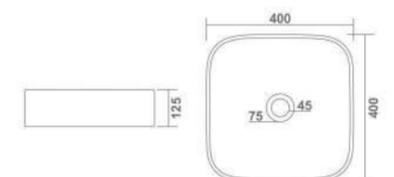

The right bathroom basin sink for your home will largely depend on the layout of your current bathroom. There are a few key things you'll need to consider:

- The size of your bathroom.
- The location of other fixtures such as your toilet and shower.
- The location of your existing basin plumbing.
- How you want your sink to look.
